

Fall 2009 – EcoLunch

Fridays 12 noon – 403 WI DB - Bring your lunch

- | | |
|--------------|--|
| 11 September | Arley Camargo – Delimiting lineages with multi-locus DNA data and coalescent-based methods |
| 18 September | Josh Kreitzer – June sucker survival and growth correlated with zooplankton abundance in Utah Lake |
| 25 September | Stephen Jenkins – Evaluating the cost of RNAi resistance in <i>C. elegans</i> |
| 02 October | Clint Whipple – Defining the boundaries: evolution of protein interactions in floral patterning |
| 09 October | Steve Merkley – The effect of introduced western mosquitofish on ecosystem function of a desert spring |
| 16 October | Russ Rader – The interface between phylogeny and community ecology: passing fad or insightful new discipline? |
| 23 October | Eric Billman – Prior experience affects reproductive allocation in a burying beetle |
| 30 October | Keith Crandall – Decapod evolution |
| 06 November | Brittany Gale - Life history of <i>Brachyrhaphis parismina</i> : variation within and among populations |
| 13 November | Quint Randle – Department of Communications, BYU – Population ecology and media use |
| 20 November | Jack Sites – Progress on the Squamate Tree-of-Life |
| 27 November | No EcoLunch – Thanksgiving Holiday |
| 04 December | Eduardo Castro - TBA |
