

Request for Additional Semester of Funding

DEPARTMENT OF BIOLOGY

Student: _____ Degree: _____

Semester & Year Admitted: _____

MS students receive 2 years of guaranteed support, and PhD students receive 5 years of guaranteed support. Graduate students may receive one semester of additional funding if they haven't graduated within their allotted time and will still be on campus working towards their degree. Additional funding is typically not granted if a student will be enrolled in a graduate program at another institution or will be employed off-campus full-time. If the funding is granted, it is expected that the student will be graduating at the end of this additional semester.

Funding Requested:

Department RA

Tuition scholarship (2 credits only)

Supplemental award (for insurance, etc.) - *PhD students only*

Other Institution: Will you be enrolled in a graduate program at another institution during this additional semester?

Off-Campus Employment: Will you be working full-time or part-time off-campus?

Justification: Explain why an additional semester is needed (what has kept you from graduating).

Timeline of Incomplete Requirements (Defense of Research, Final Defense, etc.):
